### THE WONDER of URBAN PLANTS

#### **ACTIVITY IDEAS**

Find inspiration for fun-filled activities orientated around plants in urban areas!

# Find shade from a tree

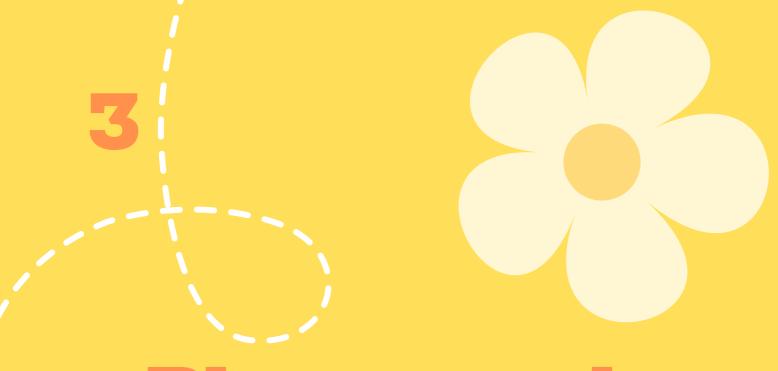

Trees are really important to help cool our streets down

### Water a street tree

Trees are really important to help cool our streets down. Help them out with a drink!

#### Photograph some flowers

Colourful flowers can make us feel better.

Take a photo of what you find!

#### Plant a seed

Help your local area by planting a seed. It could be in your garden, in a plant pot inside, or in the woods!

Draw your favourite plant and where it is growing.

#### Sit in nature

Sit somewhere with plants. What can you hear, see, smell, and touch?

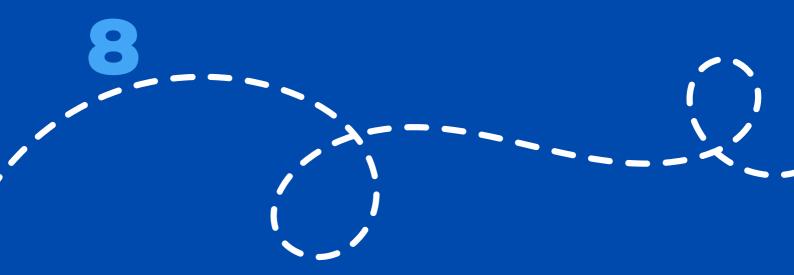

### Enjoy a woodland walk

Go for a walk in the trees. Does the temperature feel different under the canopy?

#### Find a stream

With your grown-up, find a stream with plants. Does the temperature change near the water?

# Leave out a plant pot

Make sure it has soil and wait a few months through the spring, does anything grow?

### Count the colours

Find an area with plants and count the different colours. How many different shades are there of each colour?

# Create a leaf collage

Make a collage out of twigs and leaves you find on the floor.

### Find some insects

Insects love places with lots of different plants, like wildflower meadows. Where else could you find insects?

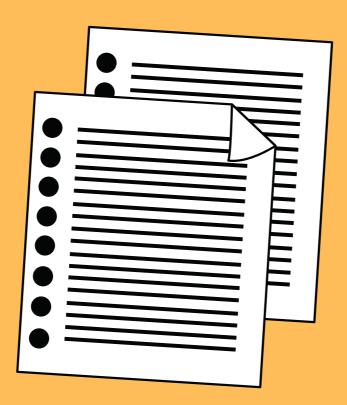

# Visit the Botanical Gardens

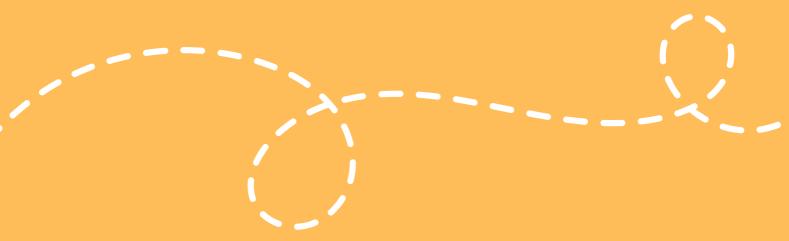

Come and visit the gardens, we would love to see you. Use our self-guided tour sheet to learn all about how plants help us!

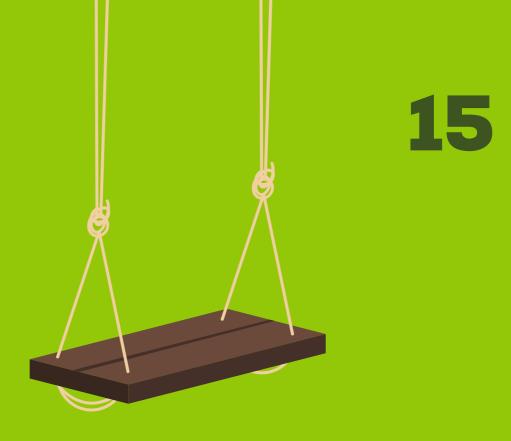

14

## Complete an activity

Try out one of our activity sheets on the Sheffield Botanical Gardens website!

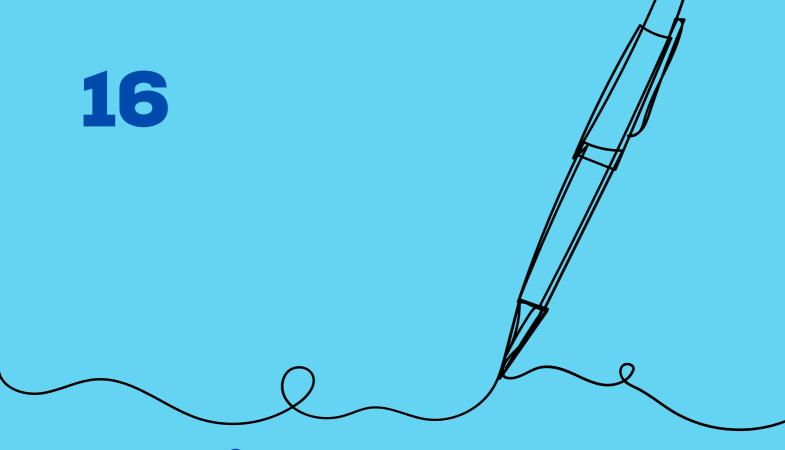

### Play in the outdoors

Plants can make playtime even more fun!

Hide in the bushes, swing from a branch, or

climb a tree!

# Write a nature poem

Write a poem about how much plants help us out!

# Find a fruit or berry

Plants provide food for us and animals. Can you find a plant with fruit or berries on it?

# Draw a tree near you

Trees near our houses help keep us cool in the summer. Draw a picture of a tree to show how much you appreciate them!

Create a tally of the different plants in your garden or local park, and then draw a bar chart. Which plant is there the most of?

20

# Create a mini garden

Using old tubs, seeds, soil, and water, create a mini windowsill garden with a little pond!

#### Let grass grow

If you have a garden with grass, let a patch of it grow long to help insects and catch rain!

22

## Draw your favourite plant

Write a poem to go with it about why it is your favourite.

# Talkabout why you like plants

Talk to your friends or family about why you like plants, or which plant is your favourite!
